**L-FABP**

**Cat. No.:** RCP9324  
**Size:** 10μg

**Synonym:** Fatty Acid Binding Protein, Liver; FABP-1; Z-Protein; 14kDa Selenium Binding Protein

**Description:** Fatty acid binding proteins are a family of small, highly conserved, cytoplasmic proteins (14-15kDa) that bind long chain fatty acids, their CoA derivatives, bilirubin, organic anions and other small hydrophobic molecules. L-FABP (or FABP-1) is found predominantly in liver and is believed to be involved in the regulation of lipid transport and metabolism and is required for cholesterol synthesis and metabolism.

*RANDOX* recombinant L-FABP comprises a 127 amino acid fragment (1-127) corresponding to the human liver FABP protein and is expressed in *E. coli* with an amino-terminal hexahistidine tag. This product is for research use only and is not intended for diagnostic or therapeutic use.

**Form:** Liquid.  
Supplied in 1x Laemmli Buffer (25mM Tris-HCl pH6.8, 50mM DTT, 1% (w/v) SDS, 0.1% (w/v) Bromophenol Blue, 2.5% Glycerol).

**Purity:** Single band on Western blot.
