Anti- ErbB3 Recombinant Antibody Fragments

Target: Anti- Erythroblastic oncogene B3 (ErbB3)

Clone Name: 9.22E1.F5.H10

Catalogue Number: RAF9639

Description: Recombinant single domain antibody fragments (sdAb) obtained from Alpaca and expressed in an E. Coli to bind against human Erythroblastic oncogene B3 (ErbB3) antigen.

Activity/ Specificity: Tested positive against ErbB3 antigen. Cross-reactivity checked against a panel of known cross-reactants and non-specific antigens.

Applications: These fragments contain His and c-Myc fusion tags which may be used for detection or immobilisation. Recombinant antibody fragments are suitable for use in ELISA immunoassays, biosensor applications, western blots, immunohistochemistry, flow cytometry, immunoaffinity purification and most other immunological methods.*

Size: Approximately 18 kDa

Quantity: 1 mg

Concentration: Typically >1mg/ml

Purity: >90% assessed by SDS-PAGE.

Storage: These fragments are stable at 4°C. It is recommended that for storage over extended periods they are kept at ~20°C and should not be subject to repeated freeze-thaw cycles.

Buffer: 1x PBS containing 0.09% sodium azide preservative.

Dilution Factor: To be determined by end-user.
